

My name is Frank Greer and I have resided in Heber for over 30 years. During this time I have served in education as a teacher, principal, superintendent, and most recently as the Northeastern Arizona Tech Prep Director. Since 1999, I have also served as a member of the NAVIT Governing Board representing the Heber-Overgaard area. While serving in these capacities, I have come to learn of NAVIT and its work with young people in our region.

Northland Pioneer College (NPC) Career and Technical Education Programs (CTE) offered by NAVIT provide meaningful opportunities for students to obtain gainful employment after high school. Fire Science, Medical Assistant, and Nursing Assistant are just a few examples of the CTE Programs available. Not only do students receive high school credit to use towards graduation at their home high schools, but they also receive college credit from NPC. In today's workforce, it is critical for students to not only have a marketable skill, but also to have college credit available to them when it is needed for advancement within their available jobs.

It is for these reasons that I have chosen to seek re-election to the NAVIT Governing Board representing the Heber-Overgaard School District.
